## Growing our own teachers, successfully provides scholarships for two years in a row.

In spite of tough economic times, the Growing Our Own Teachers scholarship initiative has been able to make good on providing full \$4000, one year scholarships for eight teacher candidates this year. Last years batch of 14 teacher candidates

have all been placed and are busy teaching in our schools. Growing our own Teachers has helped provide more teacher permanency in our local schools that are qualified and certified through the University of Hawaii.

## Snapshots

### Sally Motta

President Jeff Goodman singled out Sally Motta for a job well done with the Adopt an Angel Christmas gift program for local children

### Tony Motta

Tony Motta reminded us all that there is going to be a repeat of last years combination Yard Sale, Estate Sale, Garage sale. Look for things to donate. This is a big fund raiser for the club and almost everything we raise is profit. President elect John Gillen is donating things left in storage lockers.

Otsuka will donate some items. Mal Dohrman made a contribution from his office. Volunteers are welcomed. The sale will be held on January 24th.

### George Corrigan

The Growing Our Own Teachers candidates presented members leis to members who are involved in the fund raising effort. Emily Blackburn presents a lei to George Corrigan

## Corrigan's Corner

### THE FUTURE IS NOW!

If we could shrink the earth's population to a village of precisely 100 people, with all the existing human ratios remaining the same, it would look something like the following:

There would be:

57 Asians  
21 Europeans  
14 from the Western Hemisphere, both north and south  
8 Africans

52 would be female  
48 would be male

70 would be non-white  
30 would be white

70 would be non-Christian  
30 would be Christian

89 would be heterosexual  
11 would be homosexual

6 people would possess 59% of the entire world's wealth  
all 6 would be from the United States

80 would live in substandard housing

70 would be unable to read

50 would suffer from malnutrition

1 would be near death;  
1 would be near birth

1 (yes, only 1) would have a college education

1 would own a computer

When one considers our world from such a compressed perspective, the need for acceptance, understanding and education becomes glaringly apparent. All the more reason to be an active Rotarian who's helping to make a positive difference.
